Hi Angie,

Just an FYI that I have been in contact with Valley Waste Disposal about CERCLA offsite acceptability. I'll let you know when I receive their documentation.

Scott,  
Just a note to let you know that we received your e-mail containing information needed to begin the Orofino project.  
We will begin collecting the necessary documentation.  
Thank you,

Brian Benedict  
Owner Valley Waste Disposal, LLC

Mr. Benedict,

Thank you for contacting me last week regarding the CERCLA Off-Site rule. You can find more information about the off-site rule here:  
<https://www.epa.gov/superfund/site-rule-fact-sheet>

To start the acceptability determination process, please provide the specific street address for the facility and a list of all of the environmental permits, including air, solid waste, hazardous waste, water, and any other environmental permits your facility is operating under or has applied for (even if a final permit has not been issued). For each permit, please provide the type of permit and

permit number (or describe the type of permit with an explanation that you've applied but the permit has not yet been issued), the name of the agency that issues the permit, and if you have it, the name of the contact at that agency (e.g., permitting official, inspector, program contact). If your facility has an EPA RCRA ID number, please provide that as well. Please provide a mailing address for addressing the letter regarding the results of the initial acceptability review. We may need to ask you for additional information after we review the information you submit.

Please feel free to contact me if you have any questions.
